**CEILING YOU CAN LOOK UP TO!**

## OLD WORLD CLASSIC™

Solid wood coffers extend up to 6 inches above the grid line to give the ceiling a bold, geometric, three dimensional beam and panel appearance.

## OLD WORLD™

The warmth and classic elegance of select hardwoods is perfect for the dignified and prestigious look that only wood offers. Old World represents a renaissance of old world charm that brings to life the nostalgic past identified with traditional millwork.

## DECORATIVE GRID COVER

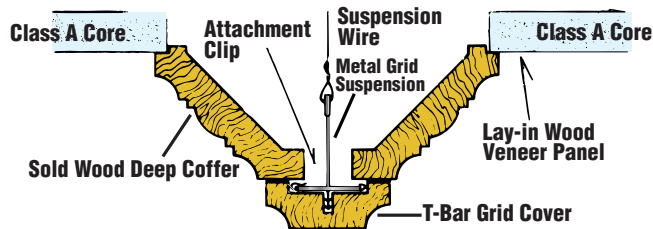

The sculptured grid cover is frequently used independently as decorative trim to conceal standard T-bar suspension. The moldings can be used to enhance the appearance of acoustical, luminous, fabric, metal or mirrored lay-in panels.

## NEW WORLD REVEAL EDGE™

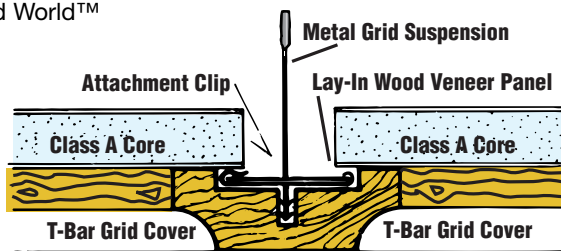

Reveal Edge panels can be extended as much as 3/4" below the grid line to achieve a definite geometric look. Wood veneered, anodized, polished or brushed metal, T-bar suspension can be used to complement or contrast the panel flush.

### PRODUCT DETAILS:

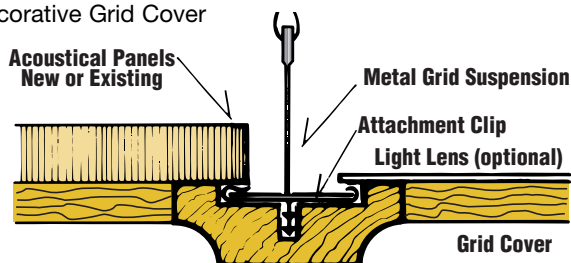

Old World Classic™

Old World™

Decorative Grid Cover

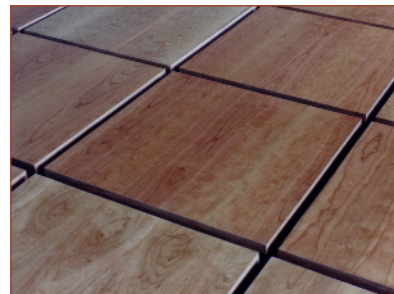

### FEATURES:

- Product compatible with standard 15/16" T bar ceiling grid
- Class A fire core used with veneer faced products
- Lightweight, easy to install, nailing is not required
