CEILINGS YOU CAN LOOK UP TO!

Maintenance & Cleaning of Architectural Surfaces Inc. Ceiling & Wall Systems

1. Interior space conditions should be maintained with a relative humidity ranging from 30% to 50%. Optimal temperature range is 60°–80°.
2. Avoid contact with moisture, wipe surfaces off immediately if they come in contact with moisture, regardless of the finish used. Moisture can cause damage to our products.
3. Do not use chemical or abrasive type cleaners on our wood products.
4. A non-abrasive soft cloth with a light application of Liquid Gold® will clean and maintain our wood surfaces. Cleaning should be done as needed.
5. Exposure to direct sunlight will change the appearance of the wood over a period of time.
6. Avoid contact with heat sources such as a hot plate or lights.
7. Our topcoats do not require the use of cleaning waxes or protective oils.
